

INDUSTRIAL DESIGN SOLUTIONS

Known for our innovative design, efficient engineering, and professional service, W&A Engineering is the trusted partner of community leaders and developers driving sustainable growth throughout the United States.

INDUSTRIAL DEVELOPMENT

In an economy driven by commerce, industrial real estate has never been in higher demand. The W&A Engineering project management team has immense experience in overseeing and assisting with successful industrial development projects. With a portfolio spanning 46 states and counting, the W&A Engineering team provides our clients with both technical and creative support under one roof, maximizing our clients' property value by ensuring quality design, timely permitting, and exceptional follow-through and project support.

EXPERT SUPPORT

The W&A team is well-acquainted and experienced with local and state processes, remaining in regular contact with economic development project managers, site selectors, location advisers, and development authorities to assist in locating opportunities for successful projects.

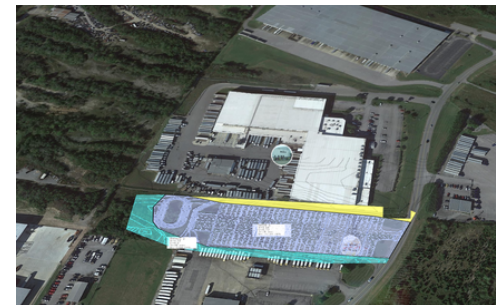

Our team understands that a prospect's needs and timing drive every economic development opportunity, and we are committed to providing the timely and professional services our clients demand.

TOTAL DEVELOPMENT SOLUTIONS

CIVIL ENGINEERING

W&A Engineering's civil engineering team provides the most efficient and economical industrial design solutions available to fit our clients' needs while also satisfying the needs of stakeholders and keeping their projects on schedule and in budget. From concept studies through final engineering and construction, W&A is well-known for providing clients across the country with innovative and functional solutions.

LAND SURVEYING

Precise and professional in-house surveying guides W&A's innovative engineering, helping us provide our clients with valuable site information to help them save both time and money throughout their projects' lifecycles.

TOTAL DEVELOPMENT SUPPORT

Utilizing a mix of creative and analytical engineering along with extensive real-world experience, the W&A Engineering team efficiently moves projects from inception to completion in a wide variety of public and private sectors. Every client's main priority is optimizing their return on investment, which is why W&A tailors each service package to meet our clients' exact development needs. Our program management staff utilize our unique, proven formula to ensure consistent and reliable construction outcomes while having a positive impact on our clients' overall deal flow potential. With nearly 25 years of experience, W&A Engineering has had the pleasure of working on successful industrial projects of all shapes and sizes in 46 states and counting.
